Completed in Jul 2024

EXPERIENCES

Systems Development Internship - Smart Staff

In May 2021, I began as an intern. I worked on creating new systems and functionalities, as well as providing maintenance for existing ones.

Vue   Angular   NestJS   Java

Development Assistant - Smart Staff

In March 2022, I was hired as an assistant. I was primarily responsible for the development and maintenance of an input control system and a time tracking system with photo and geolocation features.
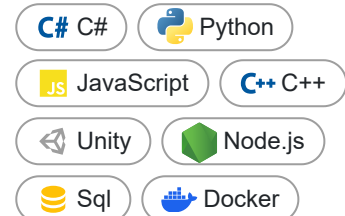

Vue   Angular   NestJS   TypeORM

Junior Systems Developer III - Smart Staff

From August 2022 until December 2023, I worked as a junior systems developer. Most of the time, I still worked on the same systems, but I also participated in the development of new solutions created by the team.

Vue   Vuetify   Angular   NestJS

MAIN TECHNOLOGIES

C# C#   Python   JavaScript   C++ C++   Unity   Node.js   Sql   Docker
